Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 14, 18, and 20, drawn to verifying operation of a device by a verified user, classified in class 713, subclass 182.
 - II. Claims 7, 16, 19, and 21, drawn to driver software for driving a selected device, classified in class 719, subclass 327.
 - III. Claims 10, 12, and 13, drawn to controlling network devices through a controller server, classified in class 719, subclass 321.

The inventions are distinct, each from the other because:

2. Inventions I through III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as directory file authentication system. In the instant case, invention II has separate utility such as storage drivers. In the instant case, invention III has separate utility such as a server controlling networked devices. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2132

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or Group III, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I or Group III, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group III is not required for Group I or Group II, restriction for examination purposes as indicated is proper.
